

Case Study:

Chubb Systems Ltd

ASL wins Chubb Control Panel & Cable Assembly Contract

Assembly Solutions has recently been selected by Chubb Systems in Blackburn to supply its high quality CCTV Control Panels and Cable Assemblies. Much of the work is used by the Highways Agency for CCTV surveillance and is designed to continuously monitor and manage incidents on the motorway.

The cables and connectors are used in very exposed outdoor conditions, often located at the top of tall surveillance towers. These conditions and the difficulty of access would mean that the build, quality and reliability is paramount.

Chubb's Purchasing Manager Mike Davis said "I am delighted to have found a professional and competitive sub-contractor like ASL right on our doorstep."
